

Recycling Program

Bella-Dura fabrics are designed to provide the ultimate performance for any design environment --residential or contract, indoors or out. Woven with an earth-friendly proprietary polyolefin fiber, Bella-Dura fabrics are inherently and permanently stain-resistant, anti-microbial, anti-fungal and bleach cleanable, exceed 50,000 double rubs and 1,500 lightfast hours and are 100% recyclable at the end of their useful life.

Bella-Dura fabrics and yarns are simply sent back to Bella-Dura and inserted into a recycle stream where they are safely and easily converted into inert black plastic resin pellets, which can then be used in a myriad of other products and industries. These reclaimed pellets offset the need for virgin plastic in production and are typically more cost-effective than virgin products--plus, they don't compromise the performance of the items that are produced.

Bella-Dura's recycle stream is a closed loop -- beginning as a post-industrial byproduct and ending as yet another usable resource for the manufacturing of many common goods.

Bella-Dura Recycling Program

Company Name: _____

E-mail: _____

Phone: _____

Address: _____

Materials to be recycled: Fabric____ Fabric Scrap____ Used Upholstery Fabric _____

If fabric, please note application and any other details _____
(i.e. residential, upholstery, contract upholstery)

On behalf of (Company Name) _____
